THE CHURCH ACCELERATOR CERTIFICATION SUMMARY

THE MOST IMPORTANT MISSION IN YOUR CITY DESERVES THE BEST LEADERSHIP IN YOUR CITY.

Our church carries the most important mission in our city. This is a proposal to make our organizational leadership match the weight of it by certifying one of our own leaders to consistently direct our team to **clarity, alignment, and our full potential**.

WHAT WE'RE PROPOSING

We send one senior leader to a **two-day, in-person certification** with a small cohort of church leaders. They return certified to lead our whole team through the Church Accelerator Framework — a complete, proven system for organizational excellence — with every tool included and a monthly coaching call with Gavin Adams as ongoing support.

FORMAT Two days, in person, small cohort

INCLUDES Complete resource library — every workbook, agenda, template, and tool

SUPPORT Monthly group coaching call with Gavin Adams

OUTCOME A certified champion on our staff, permanently

WHY THIS, WHY US, WHY NOW.

MISSION

Our church carries the most important mission in our city, and our organizational leadership should match the weight of it.

STEWARDSHIP

Outside coaching for similar work costs over $30,000. Certification builds the same capability inside our team for $5,000.

LEADERSHIP

Certification develops our team into world-class ideators and executors, and the capability stays on staff for years.

MULTIPLICATION

Once certified, we can strengthen every team with the same framework.

OUR INVESTMENT

$4,000

Versus outside coaching ~ $30,000+

Churches that bring in an outside coach to lead this type of work invest **$30,000**. This certification installs the same framework for a fraction of that *and* places a certified champion on our staff, permanently.

THE FRAMEWORK STAYS. THE CAPABILITY STAYS. THE POTENTIAL STAYS.

"Can our leader really facilitate this internally?"

Yes. The framework was built for internal facilitation. Every session comes with a complete agenda and toolset, the hardest parts are practiced during certification, and the monthly coaching call is the backstop.

"Our church is healthy and growing. Is this for us?"

Especially. Growth creates complexity, and complexity is exactly what this framework organizes. Healthy churches use it to steward momentum, develop leaders, and reach full potential.
